D. Answer the following questions

1. What is the use of slide show view?
Ans: Slide show view allows to view the presentation in full screen mode.
2. Give one difference between slide transition and animation.
Ans: Slide transition determines how your presentation moves from one slide to another whereas Animation is the addition of special visual/sound effects to the text and graphics in a slide.
3. Write the steps to insert an audio file into a presentation.
Ans: To insert an audio file, follow the given steps:
Step 1: Click on the Insert tab.
Step 2: Click on the Audio button
Step 3: Choose the desired option.
Step 4: Select the folder

Step 5: Select the file.

Step 6: Click on the Insert button.

Step 7: Click on Play/Pause button to play or pause the audio.

4. What is the purpose of importing data from other files into a presentation?

Ans: Importing data from files, such as media or objects created in Microsoft Office applications, enhances the understanding of a presentation. It also helps to explain our views more effectively than text alone.

5. Write the names of any four views in Power Point.

Ans: Four views in Power Point are:

- a. Normal view
- b. Slide sorter view
- c. Notes page view
- d. Reading view.
